PROJECTS

Thiqa - Real Estate Website

[Github](#)

- A user-friendly real estate website that streamlines the search for properties, agents, and companies. Users can buy or rent real estate and sign up as a customer, agent, or company each with tailored forms. Features a blog for industry insights and contact forms for easy team support.
- **Technologies:** Next.js, TypeScript, Tailwind CSS, React Hook Form, Zustand, ShadCN, Axios, Next-Intl, Next Auth, Framer Motion, React Leaflet, Zod, React Query.

Best Clinic - Medical Booking Platform

[Github](#)

- A comprehensive and user-friendly website for medical clinics. Provides essential information about clinic services, booking options, blog articles, medical sheets, and contact details, delivering a seamless and accessible experience for users.
- **Technologies:** Next.js, TypeScript, Tailwind CSS, React Hook Form, Zustand, ShadCN, Axios, Next-Intl, Next Auth, Framer Motion, React Leaflet, Zod, React Query.

Share Prompts

[Github](#)

- A web application that allows users to share their creative prompts and browse other users' prompts. Users can log in via Google or GitHub account, create posts with tags, view all posts and search them by username, tag, or prompt.
- **Technologies:** Next.js, TypeScript, Tailwind CSS, Next Auth, MongoDB.

Prezophobia - Social Network Platform

[Github](#)

- A social network website that helps users overcome glossophobia (fear of public speaking). Features posting, commenting, profile updates, chatting, streaming, and more. Aims to provide a supportive community for improving public speaking skills and confidence.
- **Technologies:** React.js, JavaScript, React Query, Axios, CSS3.
