Projects

- **Thiqa | Real Estate Website:**
  - Tech stack: Next.js, TypeScript, Tailwind CSS, React Hook Form, Zustand, ShadCN, Axios, Next-Intel, Next Auth, Framer Motion, React Leaflet, Zod, React Query.
  - Description: a user-friendly real estate website that streamlines the search for properties, agents, and companies. Users can buy or rent real estate and sign up as a customer, agent, or company each with tailored forms. The platform also features a blog for industry insights and contact forms for easy team support. Thiqa offers an all-in-one solution for exploring and connecting within the real estate market. (*best-clinic (github.com)*)

- **Best Clinic | Medical Booking Platform:**
  - Tech stack: Next.js, TypeScript, Tailwind CSS, React Hook Form, Zustand, ShadCN, Axios, Next-Intel, Next Auth, Framer Motion, React Leaflet, Zod, React Query.
  - Description: a comprehensive and user-friendly website for medical clinics. It provides essential information about clinic services, booking options, blog articles, medical sheets, and contact details, delivering a seamless and accessible experience for users. Feel free to visit the website. (*best-clinic (github.com)*)

- **Sheriax-website:**
  - Tech stack: Next.js, TypeScript, Sass, Framer Motion
  - Description: The main website for Sheriax, designed and developed during my internship to serve as the company's primary digital presence. The website showcases Sheriax's services, values, and contact information, providing current and potential clients with a comprehensive overview of the company.(*sheriax-website (github.com)*)

- **Share Prompts:**
  - Tech stack: Next.js, TypeScript, Tailwind CSS, Next Auth, MongoDB
  - Description: a web application that allows users to share their creative prompts and browse other users' prompts. Users can log in by Google account or GitHub account, create a post with a tag, view all posts and search them by username, tag, or prompt, update their posts later, and copy the prompt of any post to their clipboard. (*share-prompt (github.com)*)

- **Prezophobia:**
  - Tech stack: React.js, JavaScript, React Query, Axios, CSS3
  - Description: a social network website that helps its users to overcome glossophobia, which is the fear of public speaking. Users can do a lot of things on the website, such as posting, commenting, updating profile, chatting, streaming, and more. The website aims to provide a supportive and friendly community for people who want to improve their public speaking skills and confidence. (*prezophobia (github.com)*)

Extracurricular Activities
- Mentor in FU-ICPC community wave 2 level 1, Fayoum 2023.
- Participated in ICPC ECPC Contest, 2022.
