Career Objective

Motivated, self-starting problem solver with a passion for code and design, who is also dedicated to lifelong learning. I possess a positive, team-oriented attitude with very good communication and organizational skills. Seeking Web developer position Focused on front-end development.

Education

Bachelor degree of Computer And Systems Engineering, Faculty of Engineering, Fayoum University, Egypt, 2018-2023

- Thesis: "Prezophopia" | Supervisor: Dr. Sayed Taha
  - **Prezophobia** is a social network website that helps its users overcome glossophobia, which is the fear of public speaking. Users can do a lot of things on the website, such as posting, commenting, updating profiles, chatting, streaming, and more. The website aims to provide a supportive and friendly community for people who want to improve their public speaking skills and confidence.
- Graduation Project: Excellent (98%)
- Overall Grade: Excellent with honors (87.6%)
- Date of Graduation: July, 2023

Work Experience

- **Front-end Developer, Freelance, January-2024 – Present.**
    - Working on freelance projects with reactJS.
    - Do system analysis to make the business needs clear for the software life-cycle.
    - Overcome project deadlines through effective time management and strategic planning.

- **Front-end Developer, Sheriax, February-2024 – April-2024.**
    - Worked in an agile work environment using scrum methodology and Trello task management.
    - Developed the Sheraix website from scratch on a new design. Sheriax website is the main website of Sheriax company.
    - Created a website for the Chatiko app, an AI assistant app available on the Google Play Store.

- **Full Stack Development Intern, NTI, September-2022 – October-2022.**
    - Learning web development basics.
    - Working on an E-commerce app with angular and nodeJS.

Projects

- **Portfolio:** a Website that serves as a window into my skills, projects, and experiences. Feel free to visit it here. *(portfolio (github.com))*
- **Share-Prompt:** a web application that allows users to share their creative prompts and browse other users' prompts. Users can log in by Google account or GitHub account, create a post with a tag, view all posts and search them by username, tag, or prompt, update their posts later, and copy the prompt of any post to their clipboard. (*share-prompt (github.com)*)
- **Markdown-note:** a website that allows users to create notes with tags, titles, and markdown bodies. Users can delete or edit the notes after creating them. Users can also edit, delete, or add new tags and it will automatically update all the tags in the notes.(*markdown-note (github.com)*)
- **3D-Timer:** a web-based timer with a primary focus on creating an engaging user experience through CSS and JavaScript animations. The goal of this project is to enhance my skills in working with animations, JavaScript, and CSS. *(3D-Timer (github.com))*

Extracurricular Activities

- Mentor in FU-ICPC community wave 2 level 1, Fayoum 2023.
- Participated in ICPC ECPC Contest, 2022.
